Foreword
Mazars in Asia Pacific

As the world continues to rapidly change and progress, businesses are faced with a complex social, economic and regulatory landscape. Today, expectations of businesses go beyond financial performance to encompass sustainability criteria and businesses are under increasing pressure to change how they grow.

Technology and innovation are shaping the way we operate, and yet we have only just scratched the surface in harnessing their full potential. Developing the right strategies to drive business success in the face of these emerging challenges can be a daunting task for business leaders.

The Asia Pacific (APAC) region has an important role to play as a driver of the global economy, and as international businesses look to expand overseas, the region presents some of the best opportunities for growth.

At the same time, Asia Pacific also offers unique strengths and difficulties: it is incredibly diverse with wide cultural differences in each country and varying levels of political maturity, governmental regulations and technological infrastructure. As the global economy is moving east, businesses around the world are beginning to shift strategies to take advantage of the potential presented in the region.

Mazars in Asia Pacific offers innovative and bespoke solutions to help businesses navigate their endeavours in the region and guide them to success. Our firm is present in over 15 countries and territories in Asia Pacific and draws on the expertise of over 8,700+ professionals in 50+ offices.

Mazars brings distinguished value through its operation as a truly united partnership, where colleagues from across the globe work as one integrated team, leveraging expertise, scale and cultural understanding to deliver exceptional services in audit and accounting, as well as tax, financial advisory, outsourcing, consulting and legal services.

With our offices spread throughout the region, we help businesses to operate locally, enter new markets and streamline their regional and global operations. Our single, united and connected partnership enables us to collaborate seamlessly across various sectors, services and geographies to deliver consistent quality to our clients using a holistic approach.

Mazars serves clients of all sizes and from all sectors – from small start-ups to large multi-national companies. Through our tailor-made services, we customise the best approach that respects the individual identity and goals of each business, catering to their unique way of operating. Whatever the issue, industry, or stage of development, we can bring businesses the right solution that satisfies their needs and aspirations for the future, with our agility and understanding.

Businesses developing in Asia Pacific will find in Mazars a strategic business partner, who can provide a single point of contact in the region and help make the most of opportunities in this business environment.

Pascal Jauffret
Chairman of the APAC board, Mazars

Mazars in Asia Pacific

We operate as one team, taking a collaborative, integrated approach that allows us to deliver consistent and personalised services to our clients – large and small – across all sectors and geographies. We use our expertise and our independence to do what is right.

Mazars in Afghanistan

"Mazars in Afghanistan, is a relatively new name in Afghanistan's lucrative market. With untouched avenues and numerous opportunities, we have excelled in providing market competitive services to a wide array of clientele and intend to do so in future as well. Our exponential growth is an indication of our client's unwavering reliance on our services."

Mazars in Japan

“Mazars in Japan is a fully integrated multi-service professional practice serving both local and international companies, from SMEs to large & listed groups. With over 18 nationalities represented, our multicultural team is able to harmonise Japanese specificities with the reality of a global economy. Over the last 30 years, we have established our firm as an integral asset for both assisting foreign companies to settle in Japan and guiding Japanese companies to develop and control their international operations.”

Mazars in Malaysia

"With sustainable growth being at the centre of Mazars' business model, it is timely that we introduce a new office in the south of Peninsular Malaysia to better serve businesses in the dynamic Johor state. Given its strategic location, our new Johor Bahru office will also serve as a platform for us to help clients bridge opportunities into the region.

Supported by our multicultural teams and local knowledge, Mazars in Malaysia continues to strive to do what is right our clients and for the public interest."
